Blake Insomnia Therapeutics Inc.
NOTES TO FINANCIAL STATEMENTS
(A Development Stage Company)
May 31, 2016

1. NATURE OF OPERATIONS

Blake Insomnia Therapeutics Inc. (formerly Book it Local, Inc.) ("The Company") was incorporated in the State of Nevada on August 11, 2012 as Book It Local, Inc. to develop its online booking system to help consumers find and hire live entertainment for weddings, corporate events, private parties, nightclubs, grand openings, and other events. On September 1, 2015, the Company changed its name to Blake Insomnia Therapeutics Inc. The Company is in the development stage with no revenues and

Blake Insomnia Therapeutics Inc.
NOTES TO FINANCIAL STATEMENTS
(A Development Stage Company)
May 31, 2016

1. NATURE OF OPERATIONS

Blake Insomnia Therapeutics Inc. (formerly Book it Local, Inc.) ("The Company") was incorporated in the State of Nevada on August 11, 2012 as Book It Local, Inc. to develop its online booking system to help consumers find and hire live entertainment for weddings, corporate events, private parties, nightclubs, grand openings, and other events. On September 1, 2015, the Company changed its name to Blake Insomnia Therapeutics Inc. The Company is in the development stage with no revenues and a limited operating history.

2. GOING CONCERN CONSIDERATION

These financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates, among other things, the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred a cumulative net loss of $292,699 since its inception and requires capital for its contemplated operation and marketing activities to take place. The Company's ability to raise additional capital through the future issuances of common stock is unknown. The obtainment of additional financing, the successful development of the Company's contemplated plan of operations, and its transition, ultimately, to the attainment of profitable operations are necessary for the Company to continue operations. The ability to successfully resolve these factors raise substantial doubt about the Company's ability to continue as a going concern.

Future issuances of the Company's equity or debt securities will be required in order for the Company to continue to finance its operations and continue as a going concern. The Company's present revenues are insufficient to meet operating expenses. The financial statements do not include any adjustments that may result from the outcome of these aforementioned uncertainties.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America and are presented in US dollars. The Company's year-end is August 31.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturity of three months or less to be cash equivalents.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires that management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Revenue Recognition

The Company applies paragraph 605-10-S99-1 of the FASB Accounting Standards Codification for revenue recognition. The Company recognizes revenue when it is realized or realizable and earned less estimated future doubtful accounts. The Company considers revenue realized or realizable and earned when all of the following criteria are met:

(i) persuasive evidence of an arrangement exists,

Table of Contents

Use of Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires that management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Revenue Recognition

The Company applies paragraph 605-10-S99-1 of the FASB Accounting Standards Codification for revenue recognition. The Company recognizes revenue when it is realized or realizable and earned less estimated future doubtful accounts. The Company considers revenue realized or realizable and earned when all of the following criteria are met:

(i) persuasive evidence of an arrangement exists,

(ii) the services have been rendered and all required milestones achieved,

(iii) the sales price is fixed or determinable, and

(iv) collectability is reasonably assured.

Foreign Currency Translation

The financial statements are presented in United States dollars. In accordance with ASC 830, "Foreign Currency Matters", foreign denominated monetary assets and liabilities are translated into their United States dollar equivalents using foreign exchange rates which prevailed at the balance sheet date. Revenue and expenses are translated at average rates of exchange during the year. Gains or losses resulting from foreign currency transactions are included in results of operations.

Stock-Based Compensation

The Company accounts for stock-based compensation using the fair value method following the guidance set forth in section 718-10 of the FASB Accounting Standards Codification for disclosure about Stock-Based Compensation. This section requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award- the requisite service period (usually the vesting period). No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

Fair Value for Financial Assets and Financial Liabilities

The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification ("Paragraph 820-10-35-37") to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America (U.S. GAAP), and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Level 1 Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Table of Contents

Fair Value for Financial Assets and Financial Liabilities

The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification ("Paragraph 820-10-35-37") to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America (U.S. GAAP), and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Level 1	Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.
Level 2	Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.
Level 3	Pricing inputs that are generally observable inputs and not corroborated by market data.

The carrying amounts of the Company's financial assets and liabilities, such as cash, approximate their fair values because of the short maturity of these instruments.

The Company does not have any assets or liabilities measured at fair value on a recurring or a non-recurring basis, consequently, the Company did not have any fair value adjustments for assets and liabilities measured at fair value at May 31, 2016, nor gains or losses are reported in the statement of operations that are attributable to the change in unrealized gains or losses relating to those assets and liabilities still held at the reporting date for the period ended May 31, 2016.

Income Taxes

The Company follows the accrual method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the estimated tax consequences attributable to differences between the financial statement carrying values and their respective income tax basis (temporary differences). The effect on the deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. At May 31, 2016 a full deferred tax asset valuation allowance has been provided and no deferred tax asset has been recorded.

Basic and Diluted Net Income (Loss) per Share

The Company computes net income (loss) per share in accordance with ASC 260, "Earnings per Share" which requires presentation of both basic and diluted earnings per share (EPS) on the face of the income statement. Basic EPS is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of common shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period including stock options, using the treasury stock method, and convertible preferred stock, using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential common shares if their effect is anti-dilutive.

Recent Accounting Pronouncements

In June 2014, the FASB issued ASU 2014-10, Development Stage Entities (Topic 915) Elimination of Certain Financial Reporting Requirements. ASU 2014-10 eliminates the distinction of a development stage entity and certain related disclosure

Recent Accounting Pronouncements

In June 2014, the FASB issued ASU 2014-10, Development Stage Entities (Topic 915) Elimination of Certain Financial Reporting Requirements. ASU 2014-10 eliminates the distinction of a development stage entity and certain related disclosure requirements, including the elimination of inception-to-date information on the statements of operations, cash flows and shareholders' equity. The amendments in ASU 2014-10 will be effective prospectively for annual reporting periods beginning after December 15, 2014 and interim periods within those annual periods, however early adoption is permitted for financial statements not yet issued. The Company adopted ASU 2014-10 since the quarter ended February 28, 2015, thereby no longer presenting or disclosing any information required by Topic 915.

The Company has reviewed all recently issued, but not yet effective, and does not believe the future adoption of any such pronouncements may be expected to cause a material impact on its financial condition or the results of its operations.

4. NOTES PAYABLE

On August 31, 2014 the Company issued a promissory note payable in the amount of $5,000. The note is due on May 31, 2016 and bears interest at 10% per annum.

On November 20, 2014 the Company issued a promissory note payable in the amount of $10,000. The note is due on demand and bears interest at 10% per annum

On January 18, 2015 the Company issued a promissory note payable in the amount of $10,000. The note is due on demand and bears interest at 10% per annum.

On June 24, 2015 the Company issued a promissory note payable in the amount of $12,500. The note is due on demand and bears interest at 10% per annum.

On December 10, 2015 the Company issued a promissory note payable in the amount of $15,000. The note is due on demand and bears interest at 10% per annum.

The interest expense for the nine months ended May 31, 2016 and May 31, 2015 is $3,521 and $1,265, respectively.

5. RELATED PARTY TRANSACTIONS

The President of the Company provides management and office premises to the Company for no compensation. The effects of this immaterial to the financial statements taken as a whole. During the year ended of August 31, 2015 a shareholder of the Company provided $3,058 for expenses. As of May 31, 2016, there is a balance owing to the shareholder of $3,058. This balance is non-interest bearing and has no specified terms of repayment.

6. STOCKHOLDERS' EQUITY

In August 2012, the Company authorized the issue of 100,000,000 common shares of the Company at par value of $.0001and authorized the issue of 10,000,000 preferred shares at par value of $.0001.

During the year ended August 31, 2014, the Company issued 21,000,000 common shares in exchange for $210,000 in services rendered, valued at the closing stock price at the date of issuance.

On December 23, 2014, a former director of the Company agreed to tender 3,000,000 shares of the Company for cancellation in exchange for $10,000. In addition, the Company agreed to issue 1,500,000 shares of the Company for $5,000 cash and 1,500,000 shares for advisory services with a fair market value of $5,000.

At May 31, 2016, there are total of 31,597,572 common shares of the Company issued and outstanding.

On December 23, 2014, a former director of the Company agreed to tender 3,000,000 shares of the Company for cancellation in exchange for $10,000. In addition, the Company agreed to issue 1,500,000 shares of the Company for $5,000 cash and 1,500,000 shares for advisory services with a fair market value of $5,000.

At May 31, 2016, there are total of 31,597,572 common shares of the Company issued and outstanding.

7. SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental disclosures of cash flow information for the years ended May 31, 2016 and May 31, 2015 is summarized as follows:

Cash paid during the periods ended May 31, 2016 and May 31, 2015 for interest and income taxes is as follows:

	2016	2015
Interest	$ -	$ -
Taxes	$ -	$ -

8. SUBSEQUENT EVENTS

In accordance with ASC 855-10, the Company has analyzed its operations subsequent to May 31, 2016 to the date these financial statements were issued, and has determined that it does not have any material subsequent events to disclose, except as noted below.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the consolidated financial statements and related notes included in this report and those in our S-1 registration statement deemed effective on June 10, 2013. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in such forward-looking statements as a result of certain factors, including but not limited to, those described under "Risk Factors" included in Part II, Item IA of this report.

Background Overview

The Company is currently developing its business plan for an insomnia medication known as Zleepax. The Company has not completely developed this plan. Upon further development of the business plan, the Company intends to file an 8-k informing the public of the Company's business plan and its developments in Zleepax.

As of August 15, 2016, the authorized common stock of the Company consisted of 100,000,000 shares of Common Stock, of which 31,597,572 shares were outstanding. Each share of Common Stock is entitled to one vote with respect to all matters to be acted on by the stockholders.

Future Business

It is the intention of the officers, directors, and majority shareholders to change the plan of business of the Company from an online booking agency to an insomnia remedy provider. The Company has not completed the transition and is in the process of drafting a super 8-k detailing the plans of the Company, changing the name of the Company, the relevant risk factors, and other material information.

Since our inception on August 11, 2012 to May 31, 2016, we had not generated any revenues and we incurred a loss of $4,775 for the three months ended May 31, 2016 and $24,796 for the nine months ended May 31, 2016. These losses were mostly related to the costs associated with administrative expenses. To this point, our only business activity has been the formation of our corporate

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the consolidated financial statements and related notes included in this report and those in our S-1 registration statement deemed effective on June 10, 2013. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in such forward-looking statements as a result of certain factors, including but not limited to, those described under "Risk Factors" included in Part II, Item IA of this report.

Background Overview

The Company is currently developing its business plan for an insomnia medication known as Zleepax. The Company has not completely developed this plan. Upon further development of the business plan, the Company intends to file an 8-k informing the public of the Company's business plan and its developments in Zleepax.

As of August 15, 2016, the authorized common stock of the Company consisted of 100,000,000 shares of Common Stock, of which 31,597,572 shares were outstanding. Each share of Common Stock is entitled to one vote with respect to all matters to be acted on by the stockholders.

Future Business

It is the intention of the officers, directors, and majority shareholders to change the plan of business of the Company from an online booking agency to an insomnia remedy provider. The Company has not completed the transition and is in the process of drafting a super 8-k detailing the plans of the Company, changing the name of the Company, the relevant risk factors, and other material information.

Since our inception on August 11, 2012 to May 31, 2016, we had not generated any revenues and we incurred a loss of $4,775 for the three months ended May 31, 2016 and $24,796 for the nine months ended May 31, 2016. These losses were mostly related to the costs associated with administrative expenses. To this point, our only business activity has been the formation of our corporate entity, creation and development of our business model, and analyzing the viability of our business. In the last nine months, we have had very little activity. It is the intent of our officer and shareholders to change the Company's business plan. Once we have fully developed this plan, we will file the appropriate 8-k. We may sell additional shares in a private offering or other offering if we are unable to obtain funds from another source such as a shareholder loan. If sufficient funds cannot be raised, none of the Company's plans may be implemented. There can be no assurance that the actual expenses incurred will not materially exceed our estimates or that cash flows from listing fees will be adequate to maintain our business. As a result, our independent auditors have expressed substantial doubt about our ability to continue as a going concern in the independent auditors' report to the financial statements included in the registration statement.

Results of Operations for the Quarter ending May 31, 2016

Assets

Currently, we have $1,212 in cash which is our only asset.

Operating Expense

Total operating expenses for the three months ended May 31, 2016 were $4,775 compared to expenses of $15,626 for the three months ended May 31, 2015.

Total operating expenses for the nine months ended May 31, 2016 were $24,796 compared to $30,767 for the nine months ended May 31, 2015.

Table of Contents

Results of Operations for the Quarter ending May 31, 2016

Assets

Currently, we have $1,212 in cash which is our only asset.

Operating Expense

Total operating expenses for the three months ended May 31, 2016 were $4,775 compared to expenses of $15,626 for the three months ended May 31, 2015.

Total operating expenses for the nine months ended May 31, 2016 were $24,796 compared to $30,767 for the nine months ended May 31, 2015.

Net Loss

Net loss for the three months ended May 31, 2016 was $6,088 compared to the for the three months ended May 31, 2015 of $15,626.

Net loss for the nine months ended May 31, 2016 were $28,317 compared to $30,767 for the nine months ended May 31, 2015.

Liquidity and Capital Resources

At May 31, 2016, we had $1,212 in cash.

Critical Accounting Policies and Estimates

Our critical accounting policies are disclosed in our S-1 Registration Statement. During the three and nine months ended May 31, 2016 there have been no significant changes in our critical accounting policies.

Recent Accounting Pronouncements

Recent accounting pronouncements are disclosed in our S-1 Registration Statement, deemed effective with the Securities and Exchange Commission on June 10, 2013. During the three and nine months ended May 31, 2016 there have been no new accounting pronouncements which are expected to significantly impact our consolidated financial statements.

The Company has $1,212 in cash. Currently, the Company's new CEO is searching for financing. The CEO and its shareholders, intend to change the business plan of the Company. Once the plan is finalized, the Company will file the appropriate 8-k with the Commission.

We currently only have $1,2126. Therefore, the cash currently available to us will not enable us to develop the business to the state in which it will optimally be able to generate revenues. If we are to generate revenues prior to needing any additional funding, we will immediately reinvest such revenues into further development our business and deployment of our business plan. We believe that the cash we have available will sustain us for approximately three (3) more months so long as we continuing operating in the manner that we are currently operating.

Equity Distribution to Management

Since our incorporation, we have raised capital through private sales of our common equity. As of August 15, 2016, we have issued 31,597,572 shares of our common stock to various shareholders, in exchange for cash and services. Specifically, Morten Albrechtsen was issued shares in exchange for cash and Wexotc ApS (a company controlled by Morten Albrecthsen) was issued 1,500,000 for services as a non-executive advisor to the Company. In exchange for these advisory services and $5,000, Mr.

If we are to generate revenues prior to needing any additional funding, we will immediately reinvest such revenues into further development our business and deployment of our business plan. We believe that the cash we have available will sustain us for approximately three (3) more months so long as we continuing operating in the manner that we are currently operating.

Equity Distribution to Management

Since our incorporation, we have raised capital through private sales of our common equity. As of August 15, 2016, we have issued 31,597,572 shares of our common stock to various shareholders, in exchange for cash and services. Specifically, Morten Albrechtsen was issued shares in exchange for cash and Wexotc ApS (a company controlled by Morten Albrecthsen) was issued 1,500,000 for services as a non-executive advisor to the Company. In exchange for these advisory services and $5,000, Mr. Albrechtsen and Wexotec ApS were issued a total of 3,000,000 shares.

In exchange for the assignment of his pending patent for a prescription sleep remedy, Birger Jan Olsen was issued 18,000,000 which is owned by our CEO, Birger Jan Olsen.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

ITEM 3. QUANTITATIVE & QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

Note applicable.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Evaluation of Disclosure Controls and Procedures Based upon an evaluation of the effectiveness of disclosure controls and procedures, our principal executive and financial officer has concluded that as of the end of the period covered by this Quarterly Report on Form 10-Q our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Exchange Act) were not effective. The Company's principal executive and financial officer has determined that there are material weaknesses in our disclosure controls and procedures. The material weaknesses in our disclosure control procedures are as follows:

1. Lack of formal policies and procedures necessary to adequately review significant accounting transactions. The Company utilizes a third party independent contractor for the preparation of its financial statements. Although the financial statements and footnotes are reviewed by our management, we do not have a formal policy to review significant accounting transactions and the accounting treatment of such transactions. The third party independent contractor is not involved in the day to day operations of the Company and may not be provided information from management on a timely basis to allow for adequate reporting/consideration of certain transactions.

2. Audit Committee and Financial Expert. The Company does not have a formal audit committee with a financial expert, and thus the Company lacks the board oversight role within the financial reporting process.

We intend to initiate measures to remediate the identified material weaknesses including, but not necessarily limited to, the following:

- Establishing a formal review process of significant accounting transactions that includes participation of the Chief Executive Officer, the Chief Financial Officer and the Company's corporate legal counsel.

Changes in Internal Controls over Financial Reporting

We have not yet made any changes in our internal controls over financial reporting that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
