Special Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q, including "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Item 2 of Part I of this report include forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance, or achievements expressed or implied by forward-looking statements.

In some cases, you can identify forward-looking statements by terminology such as "may," "should," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "proposed," "intended," or "continue" or the negative of these terms or other comparable terminology. You should read statements that contain these words carefully, because they discuss our expectations about our future operating results or our future financial condition or state other "forward-looking" information. There may be events in the future that we are not able to accurately predict or control. Before you invest in our securities, you should be aware that the occurrence of any of the events described in this Quarterly Report could substantially harm our business, results of operations and financial condition, and that upon the occurrence of any of these events, the trading price of our securities could decline and you could lose all or part of your investment. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, growth rates, levels of activity, performance or achievements. We are under no duty to update any of the forward-looking statements after the date of this Quarterly Report to conform these statements to actual results.

The Company has elected November 30th as its year end.

Note 2 – Summary of Significant Accounting Policies

Basis of Presentation

This summary of significant accounting policies is presented to assist in understanding the Company's unaudited interim financial statements. These accounting policies conform to accounting principles, generally accepted in the United States of America, and have been consistently applied in the preparation of the unaudited interim financial statements. While the information presented in the accompanying interim financial statements for the three and nine months ended August 31, 2017 is unaudited, it includes all adjustments which are, in the opinion of management, necessary to present fairly the financial position, results of operations and cash flows for the interim period presented in accordance with the accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments considered necessary for a fair presentation of the results of operations and financial position have been included and all such adjustments are of a normal recurring nature. The accompanying unaudited interim financial statements should be read in conjunction with the Company's audited financial statements (and notes thereto) for the fiscal year ended November 30, 2016 included elsewhere in the Company's Form 10K filed with the SEC on February 21, 2017. Operating results for the three and nine months ended August 31, 2017 are not necessarily indicative of the results that can be expected for the year ending November 30, 2017.

Use of Estimates

The preparation of unaudited interim financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. In the opinion of management, all adjustments necessary in order to make the financial statements not misleading have been included. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The Company's balance sheet includes certain financial instruments. The carrying amounts of current assets and current liabilities approximate their fair value because of the relatively short period of time between the origination of these instruments and their expected realization.

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

-7-

-
- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
 - Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 - Inputs that are both significant to the fair value measurement and unobservable.

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of August 31, 2017. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments. These financial instruments include accrued expenses.

Related Parties

The Company follows ASC 850, *Related Party Disclosures*, for the identification of related parties and disclosure of related party transactions.

Reclassifications

Certain prior year amounts have been reclassified to conform with the current year presentation.

Note 3 – Going Concern

The Company's unaudited interim financial statements are prepared in accordance with generally accepted accounting principles applicable to a going concern that contemplates the realization of assets and liquidation of liabilities in the normal course of business.

The Company demonstrates adverse conditions that raise substantial doubt about the Company's ability to continue as a going concern for one year following the issuance of these unaudited interim financial statements. These adverse conditions are negative financial trends, specifically operating loss, working capital deficiency, and other adverse key financial ratios.

The Company has not established any source of revenue to cover its operating costs. Management plans to fund operating expenses with related party contributions to capital. There is no assurance that management's plan will be successful.

The unaudited interim financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event that the Company cannot continue as a going concern.

Note 4 – Commitments and Contingencies

The Company follows ASC 450-20, *Loss Contingencies*, to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

Office Space

The Company contracted the use of 3,000 square feet of space owned by our Secretary, Maryna Bleier, who has been and will be contributing the space, valued at \$5,000 per month, to the Company as additional paid-in capital July 1, 2016 until July 1, 2028. Beginning July 1, 2028, the Company is obligated to pay \$5,000 monthly for the use of their office space per the terms of the rental contract.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

This Management’s Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our unaudited interim financial statements.

Forward-Looking Statements

Certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are “forward-looking statements.” These forward looking statements generally are identified by the words “believes,” “project,” “expects,” “anticipates,” “estimates,” “intends,” “strategy,” “plan,” “may,” “will,” “would,” “will be,” “will continue,” “will likely result,” and similar expressions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward looking statements. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse effect on our operations and future prospects on a consolidated basis include, but are not limited to: changes in economic conditions, legislative/regulatory changes, availability of capital, interest rates, competition, and generally accepted accounting principles. These risks and uncertainties should also be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements.

Critical Accounting Policies and Estimates

Our unaudited interim financial statements and related public financial information are based on the application of accounting principles generally accepted in the United States (“US GAAP”). US GAAP requires the use of estimates; assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenues and expenses amounts reported. These estimates can also affect supplemental information contained in our external disclosures including information regarding contingencies, risk and financial condition. We believe our use of estimates and underlying accounting assumptions adhere to GAAP and are consistently and conservatively applied. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We continue to monitor significant estimates made during the preparation of our unaudited interim financial statements.

We believe the following is among the most critical accounting policies that impact our unaudited interim financial statements. We suggest that our significant accounting policies, as described in our unaudited interim financial statements in the Summary of Significant Accounting Policies, be

Liquidity and Capital Resources

Cash and Cash Equivalents

Our cash and cash equivalents at the beginning of the nine month period ended August 31, 2017 was \$46,017 and decreased to \$12 at the end of the period.

Operating Activities

Operating activities used \$46,005 and \$10,744 in cash for the nine months ended August 31, 2017 and August 31, 2016, respectively. The increase in cash used was due to net loss in the respective periods.

Liabilities

Liabilities, consisting solely of accrued expenses, at the beginning of the nine month period ended August 31, 2017 were \$2,765 and decreased to \$765 at the end of the period. The accrued expenses consisted primarily of professional fees. The Company maintained no other liabilities during this period.

Working Capital

Our working capital was \$45,781 and \$777 on November 30, 2016 and August 31, 2017, respectively.

Going Concern

The Company's unaudited interim financial statements are prepared in accordance with generally accepted accounting principles applicable to a going concern that contemplates the realization of assets and liquidation of liabilities in the normal course of business.

The Company demonstrates adverse conditions that raise substantial doubt about the Company's ability to continue as a going concern for one year following the issuance of these unaudited interim financial statements. These adverse conditions are negative financial trends, specifically operating loss, working capital deficiency, and other adverse key financial ratios.

After the quarter ended August 31, 2017, the Company established a source of revenue by offering its products in three stores. Management projects to gross \$20,000 in the next fiscal quarter to cover operating costs. Management may have to fund operating expenses with related party contributions to capital in addition to revenue. There is no assurance that management's plan will be successful.

The unaudited interim financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event that the Company cannot continue as a going concern.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Pursuant to Item 305(e) of Regulation S-K (§ 229.305(e)), the Company is not required to provide the information required by this Item as it is a “smaller reporting company,” as defined by Rule 229.10(f)(1).

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We conducted an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended (“Exchange Act”), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by the company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures also include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Based on this evaluation, our Chief Executive Officer concluded as of August 31, 2017 that our disclosure controls and procedures were not effective at ensuring that the material information required to be disclosed in the Exchange Act reports is recorded, processed, summarized and reported as required in applicable SEC rules and forms. Through the use of external consultants and the review process, management believes that the financial statements and other information presented herewith are materially correct.

Changes in Internal Control over Financial Reporting

During the three months ended August 31, 2017, there were no changes in our internal control over financial reporting identified in connection with management’s evaluation of the effectiveness of our internal control over the financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act.
